The unadjusted Basic Aid amount is reduced by any overpayment for school divisions ineligible to receive Driver's Education funding and for any overpayments due to March 31st ADM reporting errors or overprojections. This adjusted value should be reported on the ASRFIN/ESSA for Basic Aid. This report also includes the deductions for payments made on behalf of the school division by the Department (Mental Health or School for the Deaf and the Blind transfers), which allows the school division to see the final cash payment amount. On May 7, 1997, the Federal Communications Commission (FCC) adopted a Universal Service Order implementing the Telecommunications Act of 1996. The order was designed to ensure that all eligible schools and libraries have affordable access to modern telecommunications and information services. Funding is available annually to provide eligible schools and libraries with discounts for approved goods and services. This discount is often referred to as the “E-rate” and is administered by the Universal Service Fund. Even though the FCC established this fund, it is not federal funding, therefore, report E-rate revenue (1900110) as local revenue and not as federal revenue (32001). E-rate funds provided in the form of a discount should be reported as a reduction to the expenditure based on the actual amount paid, rather than reporting E-rate revenues and showing the expenditure as the original invoice would have appeared prior to the discount.
